

Don't Stop

(Randy Koslosky - Koz B Koz Publ., BMI)

Chorus

*Don't stop lovin' me, Don't stop huggin me
Don't you ever let me go
Don't stop givin' love, I can never get enough
Don't you ever let me go*

Like the seashore and the ocean
Side by side they'll always be
Always right beside each other, That's
what I want for you and me.... So darling...

Sometimes things just go together
Like puzzle pieces they just fit
Think of us and tell me whether
You agree that this is it..... So darling...

When you find your special someone
People always say you'll know
Now I've found you, You're that true love
So baby never let me go..... So darling...
