

# Holding on to You

(Randy Koslosky - Koz B Koz Publ., BMI)

## Chorus

*You're my little life saver, I'm holding on to you*

*You're my little life saver, You help me make it through*

*'Cause If I Couldn't hold you, I don't know what I would do*

*You're my little life saver, I'm holding on to you*

Waves of work and problems, Bill collectors callin

It's getting deep and I'm losing sleep

And sometimes I think I'll drown

I don't know how I'll do it, But I know I'll make it though it

If I have you to hold on to, I know won't go down (oh)

Sometimes I want to give up, I don't believe I live up

To all the things I hoped to be for you, but still I try

Cause when your little feet come running, And I get a little huggin

I feel your love and it reminds me of the purpose of my life (oh)

## Bridge

Woho, The wind is really blowing,

I say woho, God help me make it through

Woho, The truth is really showing

You think you're holding on to me, but I'm holding on to you
